SUMMARY

Crafting code with clarity and care.

A highly experienced Senior Developer based in Turkey with over 8 years of expertise in building robust and scalable web applications. Specializing in modern technologies including Node.js and the MERN stack, I am dedicated to delivering clean, efficient code and creating functional, user-centric digital products. Proven ability to collaborate effectively with companies to develop innovative solutions leveraging React, React Native, and comprehensive backend technologies.

EXPERIENCE

Founder Engineer & Software Team Leader at BUL (2023 - Present)

- Led software development initiatives as a Founder Engineer, driving product innovation and technical strategy.
- Managed and guided a software development team, ensuring efficient project execution and high-quality deliverables.
- Collaborated extensively with UI/UX teams to translate complex designs into robust, efficient, and user-centric solutions, effectively navigating tight deadlines.

Javascript & React Native Developer at Akinon (2021 - Present)

- Developed and maintained scalable web and mobile applications, primarily utilizing JavaScript, React, and React Native.
- Contributed across the full software development lifecycle, with a strong focus on writing clean, efficient, and well-optimized code.
- Acted as a 'buddy' and mentor for new team members, facilitating seamless integration into project workflows and team dynamics.
- Proactively explored and integrated advanced technologies and innovative solutions to enhance development processes and product capabilities.

EDUCATION

Higher Education: Details available upon request.

SKILLS

- **Programming Languages & Frameworks:** JavaScript, Node.js, React, React Native, MERN Stack (MongoDB, Express.js, React, Node.js), HTML, CSS
- **Tools & Technologies:** API Development, State Management, Validation, Version Control (Git)
- **Methodologies & Principles:** Clean Code, Scalable Architecture, Problem-Solving, Team Leadership, Mentorship, UI/UX Principles, Agile Methodologies, Efficiency, Cross-functional Collaboration

PROJECTS

Authored Articles & Publications:

- **"Appexa React Geliştirme Süreçlerinizi Işık Hızına Çıkarın"**

Developed react-appexa, an all-in-one toolset designed to automate API, state, and validation processes in React projects, significantly accelerating development speed and efficiency.

Personal & Side Projects:

- Consistently develops and contributes to various side projects, demonstrating a strong passion for continuous learning and exploring new technologies.
- Actively shares acquired knowledge and insights with the developer community, contributing to collective growth and improvement.
